

**Largest in the World.**

On January 5th the Baltimore and Ohio railroad placed in active service a compound freight locomotive which is by far the largest machine of the kind in the world. The locomotive was built at the Schenectady works of the American Locomotive Company and an official test was made between Cumberland and Hyndman, a distance of fourteen miles, on Wednesday afternoon, January 4th, the test being entirely successful. This locomotive was built for the purpose of helping freight trains over the grade from Sand Patch to Rockwood on the Connellsville division, a distance of 16 miles west of Cumberland, and from there to Rockwood the grade ranges from 1.3 to nearly 2 per cent. The heaviest grade is at the rate of about 1,000 feet to the mile. The locomotive was secured for use in "pusher service," to help the freight trains over Sand Patch Hill, on the Alleghany mountains.

It is, in fact, a pair of locomotives with one boiler. The engine, in working order, weighs 334,500 pounds, and the weight of the tender, filled with 7,000 gallons of water and thirteen tons of coal, is 142,000 pounds. It has the greatest heating surface ever put into a locomotive—5,586 square feet, of which 219.4 square feet are in the firebox and 5,366.3 square feet in the tubes, which are twenty-one feet long. These proportions outdo anything of the kind designed for a locomotive. The immense power of the locomotive may be conceived in the drawbar pull of 70,000 pounds, which it can exert working compound, or 89,000 pounds in simple gear. The boiler will carry a working pressure of 235 pounds.

**The Sun's Great Heat.**

A Portuguese scientist thinks he has demonstrated a great scientific truth in regard to the sun's rays. Through the aid of a great sun motor, Professor Himalaya claims to have proved beyond the possibility of error that the actual origin of the rays and the heat of the sun is electrical. The pyroheliometer, or sun motor is the invention of Professor Himalaya. Since it has been in operation the inventor has been making some remarkable experiments with it. He has found that the heat of the sun is more than double that of the electric arc which has hitherto been the highest known temperature—8,500 degrees Fahrenheit. He has found that there is no known substance, not even asbestos, that will not fuse in his sun furnace, into which the concentrated rays of his mirror reflector and concentrator are thrown.

**EXCHANGE.**

**PITH AND POINT.**  
From the New York Press.

As the clothes are fitted the figure inclines.

Parents are always praying for the salvation of their children and indulging them to their ruin.

A man who knows enough to make his living is never thought as much of as the genius who can't.

When a man has one and sounds the final "I" in valedictorians he seems to think he isn't getting his money's worth.

There is something very malicious about the way a pretty girl is always getting up excuses to kiss her relatives when you are around.

**Straight Facts.**

A whole lot of fancy phrases can be written about remedies, but it takes facts to prove anything—good straight facts. And the strongest fact you ever heard is that Tannopiline is the best cure for piles on the market. It cures absolutely. Has a healing, soothing effect from the start.

All druggists have it for \$1.00 a jar. Ask for Tannopiline and don't dare take a substitute.

Hazleton, Pa., Jan. 12.—Two miners met instant death through the fall of rock in the Hazle mine at Leigh Valley Coal Company's plant this morning. Several others narrowly escaped.

**NOTICE.**

Notice is hereby given that the health of the people of this county is in imminent danger and must be taken care of. It has been decided that every precaution be taken to prevent prolonged cases of pneumonia, grippe, etc. The best thing to do is to give a good cough mixture as soon as the cough starts. Get MURRAY'S HOREHOUND, MULLEIN AND TAR. Only 25c a bottle. At all druggists.

Washington, Jan. 12.—The first card reception of the season will be given at the white house this evening when President and Mrs. Roosevelt will receive in honor of the diplomatic corps. Two thousand invitations have been sent out for this reception. Those present will include notables from all parts of this country.

**The "Murray's."**

When you've got a bad cough just say "MURRAY'S." If a druggist gives you anything but Murray's Horehound, Mullein and Tar you're not getting the best and surest cough remedy. Make him give you Murray's. Acts quicker and you get a 50c size bottle for 25c.

Every druggist has it.

London, Jan. 12.—King Edward today signed proclamation convening the British parliament on February 14th.

**A. G. L. and C. N. & L. Railroad Companies Sale of Unclaimed and Refused Freight.**

SUMTER, S. C., January 11, 1905.

By direction of the Freight Claim Agent, I will sell at Public Auction, on TUESDAY, FEBRUARY 14, 1905, at the Atlantic Coast Line Freight Warehouse, Sumter, S. C., for freight and other charges, the following unclaimed and refused articles of freight; also a large quantity of unlocated "over" freight of various kinds.

Goods sold without guarantee of quality, quantity or value.

Sale will commence at 10 o'clock a. m. Terms of sale CASH.

Sale will continue from day to day until all goods are sold.

**J. A. HUSKE, Route Agent.**
